# John Hancock Bank and Thrift Opportunity Fund

## Securities owned by the Fund on January 31, 2010 (Unaudited)

	Yield*	Maturity date	Par value	Value
<b>U.S. Government Agency 1.90%</b>				<b>\$7,000,000</b>
Federal Home Loan Bank, Discount Note	0.030%	02/01/10	\$7,000,000	7,000,000
<b>Total investments (Cost \$377,782,104) □ 104.54%</b>				<b>\$385,063,078</b>
<b>Other assets and liabilities, net (4.54%)</b>				<b>(\$16,729,203)</b>
<b>Total net assets 100.00%</b>				<b>\$368,333,875</b>

The percentage shown for each investment category is the total value of the category as a percentage of the net assets of the fund.

(I) Non-income producing security.

(L) All or a portion of this security is on loan as of January 31, 2010.

(S) These securities are exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold, normally to qualified institutional buyers, in transactions exempt from registration

(W) Investment in an affiliate of the Fund, the adviser and/or subadviser and represents the investment of securities lending collateral received.

(Y) The rate shown is the annualized seven-day yield as of January 31, 2010.

\* Yield represents either the annualized yield at the date of purchase, the stated coupon rate or, for floating rate securities, the rate at period end.

□ At January 31, 2010, the aggregate cost of investment securities for federal income tax purposes was \$377,782,104. Net unrealized appreciation aggregated \$7,280,974, of which \$58,698,561 related to appreciated investment securities and \$51,417,587 related to depreciated investment securities.

---

### Notes to the Schedule of Investments (Unaudited)

#### Security valuation

Investments are stated at value as of the close of regular trading on the New York Stock Exchange (NYSE), normally at 4:00 p.m., Eastern Time. Equity securities held by the Fund are valued at the last sale price or official

closing price (closing bid price or last evaluated price if no sale has occurred) as of the close of business on the principal securities exchange (domestic or foreign) on which they trade. Debt obligations are valued based on the evaluated prices provided by an independent pricing service, which utilizes both dealer-supplied quotes and electronic data processing techniques, which take into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data. Securities traded only in the over-the-counter market are valued at the last bid price quoted by brokers making markets in the securities at the close of trading. Equity and debt obligations, for which there are no prices available from an independent pricing service, are valued based on bid quotations or evaluated prices, as applicable, obtained from broker-dealers or fair valued as described below. Certain short-term debt investments are valued at amortized cost. John Hancock Collateral Investment Trust (JHCIT), an affiliated registered investment company managed by MFC Global Investment Management (U.S.), LLC, is valued at its net asset value each business day. JHCIT is a floating rate fund investing in money market instruments as part of the securities lending program.

Other portfolio assets and securities where market quotations are not readily available are valued at fair value as determined in good faith by the Fund's Pricing Committee in accordance with procedures adopted by the Board of Trustees. Generally, trading in non-U.S. securities is substantially completed each day at various times prior to the close of trading on the NYSE. The values of such securities used in computing the net asset value of the Fund's shares are generally determined as of such times. Occasionally, significant events that affect the values of such securities may occur between the times at which such values are generally determined and the close of the NYSE. Upon such an occurrence, these securities will be valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

#### **Fair value measurements**

The Fund uses a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs and the valuation techniques used are summarized below:

Level 1 □ Exchange-traded prices in active markets for identical securities. This technique is used for exchange-traded domestic common and preferred equities, certain foreign equities, warrants and rights.

Level 2 □ Prices determined using significant observable inputs. Observable inputs may include quoted prices for similar securities, interest rates, prepayment speeds and credit risk. Prices for securities valued using these techniques are received from independent pricing vendors and are based on an evaluation of the inputs described. These techniques are used for certain domestic preferred equities, certain foreign equities, unlisted rights and warrants, and fixed-income securities.

Level 3 □ Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable, such as when there is little or no market activity for an investment, unobservable inputs may be used. Unobservable inputs reflect the Fund's Pricing Committee's own assumptions about the factors that market participants would use in pricing an investment and would be based on the best information available. Securities using this technique are generally thinly traded or privately placed, and may be valued using broker quotes, which may include the use of the brokers' own judgments about the assumptions that market participants would use.

6

---

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of January 31, 2010, by major security category or security type:

**Level 2**

**Level 3**

	<b>Total Market Value at 01/31/10</b>	<b>Level 1 Quoted Price</b>	<b>Significant Observable Inputs</b>	<b>Significant Unobservable Inputs</b>
Financials	\$340,772,848	\$316,930,983	\$19,583,888	\$4,257,977
Certificates of Deposits	66,838		66,838	
Short-Term Investments	44,223,392	16,223,605	27,999,787	
<b>Total investments in securities</b>	<b>\$385,063,078</b>	<b>\$333,154,588</b>	<b>\$47,650,513</b>	<b>\$4,257,977</b>

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value.

	<b>Financials</b>
Balance as of 10/31/09	\$575,620
Accrued discounts/premiums	58,267
Realized gain (loss)	-
Change in unrealized appreciation (depreciation)	(54,250)
Net purchases (sales)	3,678,340
Net transfers in and/out of Level 3	-
Balance as of 1/31/10	<b>\$4,257,977</b>

### Securities lending

The Fund may lend portfolio securities from time to time in order to earn additional income. The Fund retains beneficial ownership of the securities it has loaned and continues to receive interest and dividends associated with securities and to participate in any changes in their value. On the settlement date of the loan, the Fund receives cash collateral against the loaned securities and maintains the cash collateral in an amount no less than the market value of the loaned securities.

The market value of the loaned securities is determined at the close of business of the Fund. Any additional required cash collateral is delivered to the Fund or excess collateral is returned to the borrower on the next business day. Cash collateral received is invested in JHCIT. JHCIT is not a stable value fund and thus the Fund receives the benefit of any gains and bears any losses generated by JHCIT.

The Fund may receive compensation for lending their securities either in the form of fees, and/or by retaining a portion of interest on the investment of any cash received as collateral. If the borrower defaults on its obligation to return the securities loaned because of insolvency or other reasons, the Fund could experience delays and costs in recovering the securities loaned or in gaining access to the collateral. The Fund bears the risk in the event that invested collateral is not sufficient to meet obligations due on loans.

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-Q

(a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-Q, the registrant's principal executive officer and principal accounting officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

Separate certifications for the registrant's principal executive officer and principal accounting officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

---

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
