NOTICE OF MATERIAL FACT

The Managements of Vivo Participações S.A. (“Vivo Part.”), Telemig Celular Participações S.A. (“TCP”) and Telemig Celular S.A. (“TC”) (jointly referred to as “Companies”), in compliance with and for the purposes of CVM Instructions Nr. 319/99 and 358/02, and in addition to the Notice of Material Fact disclosed on March 20, 2009 (“First Notice of Material Fact”), inform that, on the date hereof, their respective Board of Directors’ have approved the terms and conditions of the Corporate Restructuring, regarding the merger of shares of TC into TCP, and of TCP into Vivo Part., as described below:

The Managements of the companies understand that the Corporate Restructuring, with the following concentration of the shareholders of the Companies in only one publicly-held company, is justified as it will allow their shareholders to participate in a company with higher liquidity in Brazilian and foreign stock exchanges, and, also, will simplify the current organizational structure, reducing management costs and facilitating the unification, standardization and the rationalization of the general administration of the Companies.

1. Corporate Restructuring. As disclosed in the First Notice of Material Fact, the totality of shares of TC shall be merged into the net worth of TCP, and the holders of the merged shares of TC shall be directly granted new shares that they are entitled to in TCP. On the same date thereof, the shares of TCP shall be merged into Vivo Part., and the holders of the merged shares of TCP (including those shares resulting from the merger of TC) shall be directly granted new shares that they are entitled to in the merging company Vivo Part. Accordingly, TC shall become a wholly-owned subsidiary of TCP, and TCP shall become a wholly-owned subsidiary of Vivo Part., pursuant to article 252 of Law No. 6.404/76.

Considering that TC will become a wholly-owned subsidiary of TCP, and that TCP will become a wholly-owned subsidiary of Vivo Part., their registrations with CVM and BM&FBOVESPA will be cancelled, as well as the registrations of TCP with the Securities and Exchange Commission (“SEC”) and the New York Stock Exchange “NYSE”, eliminating the costs related thereto.

2. Companies Shares and Exchange Ratio.

2.1. Merger: the merger of shares of TC will not result in the modification to the amount or composition of its shares per class, which will be, thereupon, totality held by TCP. The holders of the common and preferred shares of TC merged into the net worth of TCP will receive new shares of TCP of the same class, i.e., the merged preferred shares shall be replaced by new preferred shares of TCP, of single class, to be issued to the respective holder and the merged common shares of TC will be

replaced by new common shares of TCP, to be issued to the respective holder. In the same way, shareholders of TCP holding common or preferred shares merged into the net worth of Vivo Part. will receive new shares of Vivo Part. of the same class they held before. The merger of shares of TCP will not result either in the modification to the amount or composition of its shares per class, which will be, thereupon, totally held by Vivo Part.

2.2. Exchange Ratio: The exchange ratio of shares issued by TC to be merged into TCP, and of shares issued by TCP to be merged into Vivo Part. were set forth based on the respective economic values of each company, as appraised by Citigroup Global Markets Inc. ("Citi") pursuant to the discounted cash flow methodology, on March 31, 2009, as well as to the recommendations of the Special Committees referred to in item 2.2.1, resulting in the following: (i) TC / TCP Ratio: for each common or preferred share of TC, 17.40 shares of TCP of the respective class shall be issued, and (ii) TCP / Vivo Part. Ratio: for each common or preferred share of TCP, 1.37 shares of Vivo Part. of the respective class shall be issued.

Upon the completion of the Corporate Restructuring, the shareholders of TC, whose shares were merged into TCP, shall receive shares issued by Vivo Part. Accordingly, in connection with the shares of TC and only as an example, the calculation of the amount of shares that such shareholders shall receive from Vivo Part. can be made as follows:

Amount of shares of TC held by the shareholder x TC/TCP Ratio = Y

Y x TCP/Vivo Ratio = amount of shares issued by Vivo Part. that shall be granted to the shareholder of TC

Considering the provisions of article 49 of the bylaws of TCP, and article 30 of the bylaws of Vivo Part., Citi has declared that, since the exchange ratios set forth by the Boards of Directors of the Companies are within the exchange ratio range obtained from the values of the Companies resulting from the valuation report, Citi understands that an equal treatment was given to the interested Companies.

The shareholders of the Companies, whose shares are merged and that, pursuant to the exchange ratio, are entitled to fractions of shares, at the end of the Corporate Restructuring, shall receive, pro rata proportionally to their fractions, the net value of the grouped fractions of shares at market prices, obtained upon an auction (or auctions, if the case may be), to be held at BM&FBOVESPA. Such payment to the shareholders shall be made within five (5) business days from the date when the last auction is held.

2.2.1. In addition to the reports prepared by Citi and its understanding expressed pursuant to its condition as a financial advisor of the Companies involved in the Corporate Restructuring, the Special Committees formed in TC and TCP, pursuant to and for the purposes of the provisions of Parecer de Orientação CVM nº 35/08 (“Special Committees”), reviewed the reports and the exchange ratios proposed for the Corporate Restructuring, with the support of Banco Bradesco BBI S.A. (“Bradesco BBI”) as an independent financial advisor hired specifically to assist the Special Committees in their duties. After evaluating the proposals jointly with Bradesco BBI, the Special Committees presented their opinion to the Managements of TC and TCP, respectively, recommending that the exchange ratios placed within the ranges appointed by the Committees to the respective Boards of Directors of the Companies, which, on their turn, are within the ranges included in the report prepared by Citi, are adequate.

2.3. Other Valuations: in compliance with the provisions of article 264 of Law No. 6.404/76, the specialized company Planconsult Planejamento e Consultoria Ltda. (“Planconsult”) was hired to appraise the net worth of TCP, TC and Vivo Part. at market price, following the same criteria and on the same reference date, and to disclose such parameter to the shareholders of the Companies in compliance with said legal provisions. According to such criteria, (i) the exchange ratio of TC shares for TCP shares would be of 13.912301 common or preferred shares of TCP for each share of TC of the same class, and (ii) the exchange ratio of TCP shares for common or preferred shares of Vivo Part. would be of 1.697712 shares of the same class of Vivo Part. for each share of TCP.

2.4. Capital Increases in the Merging Companies: TC shares to be merged into TCP and TCP shares to be merged into Vivo Part. were appraised in compliance with the provisions of article 252, first paragraph, combined with article 8, both of them of Law No. 6.404, of December 15, 1976, based on their respective economic values, as of March 31, 2009, by Planconsult, "ad referendum" of the shareholders of the Companies, and the following amounts were obtained for each one: (i) value of TC shares value: R\$ 675,042,982.18, and (ii) value of TCP shares: R\$ 1,879,727,592.70.

The variations in the net worth occurred in the Companies between the reference date of the valuation report of their economic value and the date of the shareholders’ meeting that approves the Corporate Restructuring shall remain in each one of them.

In case of approval of the merger of TC shares into TCP, by its shareholders, the capital stock of TCP shall be increased in the amount of R\$ 461,368,861.48, resulting in a total capital stock of R\$ 1,084,719,438.71. In addition, in case of approval of the merger of TCP shares into Vivo Part., by its shareholders, the capital stock of Vivo Part. shall be increased in the amount of R\$ 1,879,727,592.70, resulting in a total capital stock of R\$ 8,780,150,322.86.

3. Shareholders' Rights. The bylaws of Vivo Part., Chapters II and III, will be amended as a result of the Corporate Restructuring, in order to reflect the change in the amount of its capital stock and amount of common and preferred shares representing it. The bylaws of TC and TCP will be adapted, in the proper moment, to the conversion of such Companies into wholly-owned subsidiaries.

3.1. The new shares of TCP to be issued as a result of the Corporate Restructuring and granted to shareholders of TC shall be entitled to the same rights of the currently outstanding shares of TCP, of the common class and preferred single class. meeting held on March 20, 2009. The referred Corporate Restructuring will be submitted for final approval at the General Shareholders Meetings of the Company, of TC and of TCP.

The Chairman pointed out that, after the necessary considerations regarding the purposes of the transaction, it was concluded that the adoption of the Corporate Restructuring, as proposed, will result in the consolidation of the shareholders of the Company, of TC and of TCP in one publicly-held company and that this would allow the shareholders to participate in a company with higher liquidity in Brazilian and foreign stock exchanges, and that the transaction would also result in the simplification of the current organizational and shareholding structure of the business and aid the standardization and the rationalization of the general administration of the Companies involved in the Corporate Restructuring.

The Chairman also clarified that, as resolved in the meeting of the Board of Directors held on March 20, 2009, a Special Committee was created in TCP and in TC, as recommended by the Parecer de Orientação 35/08 issued by the Brazilian Securities Exchange Commission – CVM, and that their members have carried out their responsibilities as described in the Parecer de Orientação, including their review of the exchange ratios proposed by the Board based on the Valuation Report prepared by Citigroup Global Markets Inc., the advisement of Banco Bradesco BBI (acting as independent financial advisor for the Committees). Regarding the terms and conditions of the Corporate Restructuring involving the Company, the members of the Board of Directors, after receiving clarifications, and, considering the favorable opinion of the members of the Board of Auditors, have resolved unanimously:

The Protocol of Merger sets forth the terms and general conditions of the intended merger, the justifications of the transaction, the valuation criteria of the shares to be merged and the exchange ratio of the corporate participation of the TCP shareholders by new shares to be issued by the Company, proposed and agreed among the managements of the Company and of TCP; and

4.8. after deliberating the exchange ratio based upon the valuation report issued by Citi and in the recommendations of the Special Committee of TCP to its Board of Directors, the Board of Directors of the Company approved the exchange ratio of 1.37 shares of the Company to each TCP share, which was within the range recommended as adequate by the Special Committee of TCP to its Board, and was also within the range of exchange ratios considered by Citi as equitable for the Companies. The Board has proposed that the fractions of shares resulting from the exchange ratios be grouped and sold in auction (or auctions as the case may be) in BM&FBOVESPA, at market price, and that the net amount obtained shall be paid to the shareholders of the Company, who, as a result of the mergers, will be entitled to that portion of the proceeds of the sale corresponding to the fractional shares they would have received, up to 5 (five) business days from the date that the auction is held (or the last auction, if the case may be)

(“Bradesco BBI”), were retained to advise the Special Committee of the Company to be merged, as well as the representatives of the law office Machado, Meyer, Sendacz e Opice Advogados, in its capacity as legal advisors of the Company in order to provide any necessary clarifications.

4. AGENDA AND RESOLUTIONS:

Mr. Shakhaf Wine, Vice-President of the Board of Directors clarified that, as was known by all the present members, the purpose of the meeting was to resolve the terms and conditions of the corporate restructuring (“Corporate Restructuring”), involving the merger of all the shares of the Company, a publicly-held company incorporated in accordance with the laws of Brazil, with its head office in the City of Belo Horizonte, State of Minas Gerais, at Rua Levindo Lopes, 258, enrolled with CNPJ/MF under No. 02.320.739/0001-06 not owned by Telemig Celular Participações S.A. (“TCP”), into those of TCP, with the Company becoming its wholly-owned subsidiary and, subsequently, the merger of the totality of shares of the TCP into Vivo Participações S.A. (“Vivo Part.”), a publicly-held company controlling shareholder of the Company, incorporated in accordance with the laws of Brazil, with its head office at the City of São Paulo, State of São Paulo, at Av. Roque Petroni Junior, 1464, 6º andar, enrolled with CNPJ/MF under No. 02.558.074/0001-73, with TCP becoming a wholly-owned subsidiary of Vivo Part. (“Corporate Restructuring”).

The referred Corporate Restructuring will be submitted for final approval of the General Shareholders Meeting of the Company, of TC and of Vivo Part. This proposal for the Corporate Restructuring was presented to the Board in the meeting held on March 20, 2009. The referred Corporate Restructuring will be submitted for final approval at the General Shareholders Meetings of the Company, of TCP and of Vivo Part.

The Chairman pointed out that, after the necessary considerations regarding the purposes of the transaction, it was concluded that the adoption of the Corporate Restructuring, as proposed, will result in the consolidation of the shareholders of the Company, of TCP and of Vivo Part. in one publicly-held company and that this would allow the shareholders to participate in a company with higher liquidity in Brazilian and foreign stock exchanges, and that the transaction would also result in the simplification of the current organizational and shareholding structure of the business and aid the standardization and the rationalization of the general administration of the Companies involved in the Corporate Restructuring.

The Chairman also clarified that, as resolved in the meeting of the Board of Directors held on March 20, 2009, a Special Committee was created in TCP and in TC, as recommended by the Parecer de Orientação 35/08 issued by the Brazilian Securities Exchange Commission – CVM, and that their members have carried out their responsibilities as described in the Parecer de Orientação, including their review of the exchange ratios proposed by the Board based on the Valuation Report prepared by Citigroup Global Markets Inc., the advisement of Banco Bradesco BBI (acting as independent financial advisor for the Committees). He also informed the board that the Special Committee of the Company recommended the exchange ratios in the ranges indicated in its recommendation letter as being the most adequate, being such ranges within the ranges included in the report prepared by Citigroup Global Markets Inc..
