***Item 8.01 Other Events***

Dean Taylor, Tidewater's Chairman of the Board, President and Chief Executive Officer, has entered into a pre-arranged stock trading plan to sell a portion of the shares of Company common stock that he owns. In total, approximately 90,000 shares, or less than 20%, of the number of shares of Tidewater common stock that Mr. Taylor owns outright or has the right to acquire upon exercise of currently exercisable options have been included in the plan. Mr. Taylor has taken this action as part of a long-term strategy for asset diversification and liquidity. The stock trading plan conforms with the guidelines specified under Rule 10b5-1 of the Securities Exchange Act of 1934 and Tidewater's policies regarding stock transactions by executives.

Rule 10b5-1 permits officers and directors of public companies to adopt written, pre-arranged stock trading plans when they are not in possession of material non-public information. Using a Rule 10b5-1 plan, insiders can legally diversify their investment portfolios over an extended period, thus minimizing any market impact and any perception that the motivation for the sale was that the executive had come into possession of material nonpublic information. Under his plan, Mr. Taylor may sell up to approximately 90,000 shares of common stock through August 1, 2007. However, the plan is structured such that the number of shares that are subject to sale is determined by pre-established trading prices of Tidewater common stock, with an increasing number of shares under the plan being available for sale as the trading price of Tidewater's common stock increases.

The transactions under these plans will commence no earlier than November 9, 2006 and will be disclosed periodically through Form 144 and Form 4 filings with the Securities and Exchange Commission. The Form 4 filings will be posted on Tidewater's investor-relations Web site.
