Use of Non-GAAP Financial Information

LSI Logic has referenced non-GAAP financial information in the news release. LSI Logic management believes that the results of operations excluding special items presented herein for the three-month periods ended April 2, 2006 and April 3, 2005, and the three-month period ended December 31, 2005 provide useful information to investors regarding results of operations, as they exclude charges, expenses, gains, and losses that are not directly related to the Company's ongoing business results and/or stem from purchase business combinations. These business results are used by management for evaluating historical performance in addition to being used for the Company's forecasting and planning for future periods. Restructuring of operations, amortization of acquisition-related intangibles, and stock-based compensation expense and other special items are examples of charges that are not directly related to the Company's ongoing business results and/or stem from purchase business combinations. For a complete reconciliation of special items excluded from our results of operations for the three-month periods ended April 2, 2006 and April 3, 2005, and the three-month period ended December 31, 2005, refer to the tables furnished in the news release attached as Exhibit 99.1.

Results of operations excluding special items for the periods presented are provided for illustrative purposes only and should be read in conjunction with the comparable information presented in accordance with generally accepted accounting principles in the United States and the Company's most recent annual report on Form 10-K for the twelve months ended December 31, 2005.

The Company reported revenues of \$476 million in the first quarter of 2006, compared to revenues of \$506 million reported in the fourth quarter of 2005, and a six percent increase compared to the \$450 million reported in the first quarter of 2005.
